Mr. Theavy  
50B, Street 240  
Phnom Penh

Dear Mr. Theavy:

I am currently a second-year student at the Royal University of Phnom Penh (RUPP), and I am excited to apply for the Web Developer position you advertised on Facebook.

I believe that all of the above-mentioned studies qualify me for the position for which I am applying. I am interested in this job and I am confident that experience at work and willingness to learn new things would improve my ability.

Through my studies and self-driven learning, I have developed a solid foundation in HTML, CSS, JavaScript, and frameworks like React. I have also gained experience with back-end technologies such as Node.js and Express and have worked with databases like MySQL and MongoDB. Recently, I built a fully responsive e-commerce website as a personal project, which strengthened my skills in both front-end design and back-end functionality. I am enthusiastic about the opportunity to contribute to your team and am eager to grow and learn from experienced professionals in your company.

I would be glad to come for an interview at your convenience. You can contact me at 0887914573 or my own email address yinkhin1999@gmail.com. I look forward to hearing from you soon.

Yours sincerely,

Yin Khin
